Suburban Chambers of Commerce

Northern Union County's Voice of Business

The new Chamber of Commerce website has room for your banner to be rotated at the top of each of our pages. Each month thousands of people visit the Suburban Chambers website to find out what's going on in the business community, and to look up our Chamber members in our interactive directory.

Banners on our website are inexpensive and effective. If you have a website, your banner on our website will be linked to your website, and with a click of their mouse, our joint customers will be on their way to your site. The cost to put your banner in the rotation ... and we're only accepting 30 of them each year ... is \$125.00. You must supply your own banner in jpg format, 360 pixels wide, and 60 pixels high (the approximate size of the box above).

If you don't have a banner, then our web consultants, River Internet Communications, can make one for you. Approximate cost is \$125.00, if you have a digitally formatted logo. Dependent upon detail and your needs, your individual costs may vary.

The website is updated nearly daily, and we've already had several thousand visitors since the new design went up earlier this month, so please sign up today, and get your share of Chamber Web referrals!
